

Young Leadership Programme

Young Leadership Programme

We are committed to providing young people opportunities to develop their skills and interests as well as to demonstrate leadership within the service. When a young person who uses our Indi Youth service reaches 3rd year of secondary school, we offer them the opportunity to join our Young Leadership programme. The aim of this programme is to empower the young person and to develop their life and work based skills.

We will design a tailor made programme to meet the individual needs and interests of the young person which could include a range of opportunities e.g. leadership opportunities within the service, opportunities to gain accreditation, opportunities to work with specialists, lead on projects and/ or to spend time out with the Indi Youth service. The young person's experience will be supported by the youth team and overseen by relevant senior staff.
